

Solution and results: making the Double Axel Club purchasable by AI

Victory Skating / VSA 6-Month Double Axel Club. Recorded on October 10, 2026, together with the screen recording. The same questions as the Before check report, in the same order, now answered through the AI commerce layer, followed by how the layer works.

How the test was run

The DeepSeek chat app cannot connect to external tools, so the same DeepSeek model was used through its API (deepseek-v4-pro) in a terminal chat that gives it the four commerce tools of the MCP server: `search_offerings`, `get_offering_details`, `check_availability` and `create_checkout_link`. The lines starting with "->" in the screenshots are the tool calls the model decided to make on its own. As in the Before check, questions 1 to 7 were each asked in a new conversation, and questions 8 and 9 are multi-turn conversations in their own chats. Full transcripts are in the repository under `docs/transcripts/after`.

How the assistant now gets the product information

The product data no longer comes from guessing over web pages. It is read once from the Tilda page, checked, stored as a structured catalog, and combined with the business rules the page does not state: the club runs every weekend and can be joined any time, and the checkout bills \$299 every 6 months, renews automatically and is non-refundable. The assistant asks the MCP server, and the server answers from that catalog. Class times are computed for the customer's timezone and date, not copied from the page.

Results

- **Every conversation finds the right product**, for both "Victory Skating" and "VSA", and gives the same correct facts: \$299 (list \$699), 48 classes on Saturdays and Sundays, 45 minutes, Coach Marta, Level 3.
- **Billing terms are stated before payment**: billed every 6 months, renews automatically, non-refundable, cancel 48 hours before renewal.
- **November 6 is answered**: yes, the next sessions are Saturday 7 and Sunday 8 November, in the customer's timezone (22:00 in Bangkok, not the 21:00 shown on the page).
- **"I want to join" returns the real checkout**: the Stripe Payment Link from the page, with the conversation id attached for attribution, and the customer's email prefilled when given.
- **No invented details**: no Zoom, no per-class plan, no wrong prices, no competitors.

Before and after

#	Before	After	Enroll / pay
1	"No specific standalone program" for the Double Axel	Finds the club with full details and billing terms	No > Offered
2	Club named, with no facts and no way to buy	Full details; notes the October 10 date is not a deadline	No > Offered
3	"Invitation only", "not available for direct purchase"	\$299, "well under your \$350 budget"	No > Offered
4	Price right; renewal terms missing; invented prerequisite	Price, renewal terms and every inclusion	No > Offered
5	"\$6 per session", an invented way to pay	\$299 billed every 6 months; joinable any time	No > Offered
6	"Can't confirm"; look for a contact form	Asks the timezone; yes, Saturday Nov 7, 22:00 Bangkok	No > Offered
7	Coach "not listed", classes "not stated"	Coach Marta, Level 3, 48 classes, 15:00 London	No > Offered
8	Sells the single-Axel club; competitors' checkout links	Double Axel Club, Nov 7 start, checkout link	No > Yes
9	Page read, but Bangkok 21:00; billing unclear; no link	22:00 Bangkok; subscription terms; link with email prefilled	No > Yes

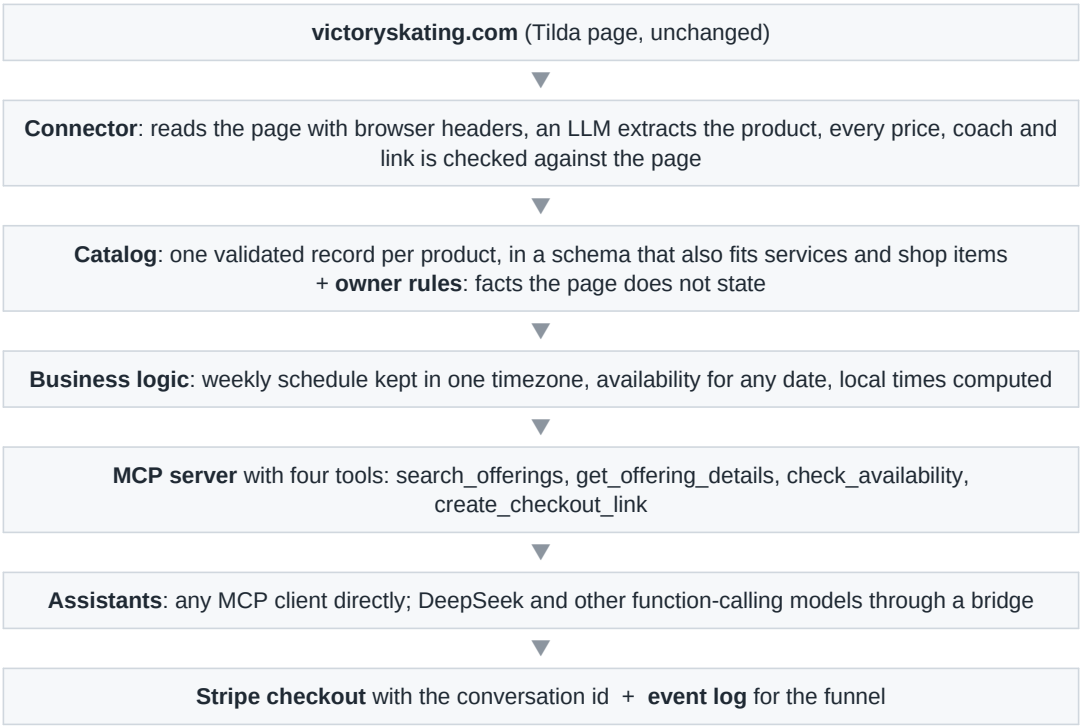

"Offered": the assistant offers to create the checkout link; questions 1 to 7 stop before the customer asks for it.

The information the assignment asks the AI to retrieve

Field	What the assistant returns	Tool
Product name	6-Month Double Axel Club	search_offerings
Brand	Victory Skating Academy; found as "Victory Skating" and as "VSA"	search_offerings
Online Double Axel program	Live online off-ice group training for the Double Axel	get_offering_details
Price	\$299 (list price \$699), about \$6.23 per class	get_offering_details
Duration	6 months; billed every 6 months, renews automatically, non-refundable	get_offering_details
Coach	Coach Marta, with her background	get_offering_details
Schedule	Saturdays and Sundays, 45 minutes, 07:00 Los Angeles time, shown in the customer's timezone	get_offering_details, check_availability
Number of classes	48	get_offering_details
Program description	Technique, power, rotation and progression modules; inclusions; equipment	get_offering_details
Skater level	Level 3, for skaters already landing double jumps off-ice	get_offering_details
Current enrollment option	Open continuously; free on November 6 means starting Saturday, November 7; access within 24 hours	check_availability
Checkout / payment action	The Stripe Payment Link from the page, with the conversation id; email prefilled on request; terms stated first	create_checkout_link

How it works

The website stays as it is. The layer sits outside it: it reads the business's existing page, keeps a structured copy, adds what the business knows but the page does not say, and exposes it through tools an assistant can call in the middle of a conversation.

Landing-page text versus business logic

The page is treated as a source of facts, not as the rules. Where the two differ, the rule wins and the page text is kept only as context.

The page says	The system uses	Why
"Join us on October 10"	Rolling enrollment: join any time, start at the next session	Rule stated by the business; the date is one start, not a deadline
"9 - 9.45 PM (ICT)"	07:00 in Los Angeles; every other timezone computed per date	Page labels are wrong after clock changes: 22:00 in Bangkok in November
"\$299/6 months" and "monthly subscription"	\$299 every 6 months, renews automatically, non-refundable	Read from the Stripe checkout, the place the customer actually pays
"\$6 / Class"	Derived: \$299 / 48 classes = \$6.23	Not a separate way to pay
Nothing about the platform	Platform left empty	An extraction that says "Zoom" is rejected because the page never says it

Enrollment, checkout and tracking

When the customer says they want to join, create_checkout_link returns the business's real checkout, the Stripe Payment Link behind the Register Now button. The assistant gets the price, renewal, cancellation and refund terms to state before the link, and the first session the customer can actually attend (access arrives up to 24 hours after payment). If the customer gives an email, it is prefilled on the checkout page.

The link carries the conversation id as client_reference_id. Stripe stores it on the payment, so a completed checkout can be traced back to the AI conversation that produced it. Every tool call is recorded with the same id, which turns "how much business did AI generate" into a funnel. Below: all test conversations on October 8 and 9.

```
victory-skating: 35 AI session(s)
  search          35
  offering_viewed 31 (89% of previous)
  availability_checked 11 (36% of previous)
  checkout_created 7 (64% of previous)
  payment_completed 0 (0% of previous)
  by channel: {'deepseek': 35}
  checkouts by offering: {'double-axel-club': 8}
```

Why DeepSeek runs through the API

The DeepSeek chat app cannot connect to external tools. The tools are defined once, in the MCP server; a small bridge connects to that server and offers the same tools to any model with function calling, DeepSeek included. Assistants that support MCP connect to the server directly.

Reuse for other products, businesses and platforms

Nothing outside the business's data folder knows about figure skating. The same schema describes a course, a salon service and a shop product, and a second business, an example Shopify store, already runs on the same server with no code changes.

Same for every business	Catalog schema, owner rules, schedule and availability logic, the four tools, the MCP server, the function-calling bridge, tracking and attribution, JSON-LD and llms.txt exports
Per business	A data folder: where the data comes from, the business profile, and the owner's rules
Per platform	One connector class with two methods: fetch (read the source) and extract (turn it into the catalog schema)

Platform	Status	What changes
Tilda and custom websites	Built	HTML pages; an LLM extracts the product and every fact is checked against the page
Shopify	Built; tested on a live public store (692 products, 7,454 variants)	products.json mapped directly, no LLM; the cart link carries the conversation id
WordPress / WooCommerce	Connector to add	WooCommerce REST API, or schema.org markup on the pages; checkout is the add-to-cart link
Mindbody	Connector to add	Public API for classes, appointments and staff; live slot availability replaces the weekly rule
Fresha	Connector to add	Public booking pages; the booking page is the checkout

Everything after the connector stays the same. One server serves all businesses, each isolated by its business id, rather than one server per business. For assistants that only read, the same catalog is exported as schema.org JSON-LD ready to paste into the Tilda page head, an llms.txt file and a JSON feed.

Before using this in production

Live data where it matters	Availability and capacity from the booking system; prices confirmed against the payment provider rather than the page.
Payments	A Stripe webhook endpoint with signature checks, turning paid checkouts into events, so revenue per channel and per question is measurable.
Storage and refresh	Catalogs, rules and events in a database keyed by business; the page is re-read on a schedule. Changes to prices, checkout or schedule already wait for approval; in production that becomes a review queue with notifications.
Owner workflow	A screen where the business confirms extracted data and states rules such as "joinable any time", instead of editing a file.
Remote access	MCP over HTTPS with OAuth, the business taken from the token, rate limits and an audit log of tool calls.
Quality checks	A fixed set of customer questions run against every model or prompt change, checking which tools are called and which facts are given, as done by hand for this report.
Privacy	Retention rules for conversations and redaction of personal details before analytics.

Deliberately not built

No vector database or RAG: with a handful of structured offerings, exact filters are more reliable and explain every match. No custom chat interface: the customer's own assistant is the interface. No changes to the website: the layer works from the outside, which is the product model.

Evidence: the nine questions

Screenshots of each conversation, in the same order as the Before check report.

Question 1

Does Victory Skating have an online Double Axel training program?

New conversation.

```
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You> Does Victory Skating have an online Double Axel training program?

You: Does Victory Skating have an online Double Axel training program?
-> search_offerings(query="online Double Axel training program")
-> get_offering_details(offering_id="double-axel-club")

Assistant: Yes, Victory Skating Academy has an online Double Axel program. Here's what it includes:

## 6-Month Double Axel Club
**Level 3 online off-ice group training** for skaters who already land double jumps off-ice and want to master the Double Axel.

- **Coach:** Coach Marta (international figure skating coach)
- **Schedule:** 2 live 45-minute classes every Saturday and Sunday – 48 classes over 6 months
- **Focus:** approach and set-up, generating rotation and height, precise landings, plyometric/bounding drills, core strength, and double-revolution drills for muscle memory

**Price:** $299.00 USD for 6 months (list price $699 – about $6.23 per class), renews automatically every 6 months until cancelled. Non-refundable. You can cancel at least 48 hours before the next payment date.

**Prerequisite:** Proficiency in double jumps off-ice.

**Included:** a free 4-day 2Axel Workbook, $5 off your next private class, and 2 free guest class passes.

Enrollment is open continuously – you can join at any time and start at the next scheduled session.

Would you like me to check the upcoming session times for your timezone, or set up enrollment?

You> █
```

Tools called	search_offerings, get_offering_details
Product found	Yes, the 6-Month Double Axel Club.
Facts given	Level 3, Coach Marta, Saturday and Sunday, 45 minutes, 48 classes, inclusions, \$299 (list \$699) renewing every 6 months, non-refundable, cancel 48 hours before renewal.
Can enroll or pay	Offers to check a date or help enroll.
Before	"There is no specific standalone program exclusively named Double Axel"; Zoom; "Victory Sports Academy".

Question 2

Does VSA offer online training for Double Axel?

New conversation.

```
PS C:\OS\panel\home\training\learning\vsa\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
Deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You: Does VSA offer online training for Double Axel?

You: Does VSA offer online training for Double Axel?
-> search_offerings(query="online training for Double Axel")
-> get_offering_details(offering_id="double-axel-club")

Assistant: Yes, VSA does offer online training specifically for the Double Axel. Here's the full picture:

**6-Month Double Axel Club** - Level 3 online off-ice group training
- **Who it's for:** Skaters who already land double jumps off-ice and want to master the Double Axel.
- **Classes:** Two live 45-minute group classes with Coach Marta every Saturday and Sunday (48 classes over 6 months).
- **What you work on:** approach and set-up, rotation and height, precise landings, plyometric/bounding drills, core stability, off-ice spins, and double-revolution drills.
- **Included:** Free 4-day 2Axel Workbook, $5 off your next private class, and 2 free group-class passes for friends/family.
- **Equipment needed:** Sneakers, jump rope, off-ice spinner, stable internet, and some space to train.

**Price:** $299 USD (regularly $699, a 57% discount), billed every 6 months and renewing automatically until cancelled. It is non-refundable, and you can cancel at least 48 hours before the next payment date via the Subscriptions link in your confirmation email.

Note: The page mentions "Join us on October 10," but this program runs every weekend and you can join at any time, starting at the next scheduled session.

Would you like me to check availability for a specific start date, or help you enroll? If you have a timezone you'd like class times shown in, let me know.

You: █
```

Tools called	search_offerings, get_offering_details
Product found	Yes, by the short brand name.
Facts given	Same facts as question 1, plus equipment; explains that the October 10 date on the page is one start of a program that runs every weekend.
Can enroll or pay	Offers to check a date, show local times or help enroll.
Before	Named the club but gave no price, coach, schedule, level or way to buy.

Question 3

I'm looking for an online Double Axel training program under \$350 for six months. Does Victory Skating have anything?

New conversation.

```
PS C:\OSPanel\home\training\learning\vsa\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You> I'm looking for an online Double Axel training program under $350 for six months. Does Victory Skating have anything?

You: I'm looking for an online Double Axel training program under $350 for six months. Does Victory Skating have anything?
-> search_offerings(query="online Double Axel training program under $350 for six months", max_price=350)
-> get_offering_details(offering_id="double-axel-club")

Assistant: Yes – Victory Skating Academy has exactly what you're looking for:

**6-Month Double Axel Club** – $299.00 USD for 6 months (regular $699, so 57% off). That's well under your $350 budget.

Here's what it includes:
- **Level 3** online, live off-ice group training for skaters who already land double jumps off-ice and want to master the Double Axel.
- **48 live 45-minute classes** with Coach Marta, every **Saturday and Sunday** over 6 months.
- Free 4-day 2Axel Workbook, $5 discount on your next private class, and 2 free group-class passes for friends or relatives.
- Covers approach/set-up, rotation and height, precise landings, plyometric/bounding drills, core strength, and double-revolution drills for muscle memory.

**Billing terms:** $299 billed every 6 months, renews automatically until cancelled, and it is non-refundable. You can cancel at least 48 hours before the next payment date via the Subscriptions link in the confirmation email.

**Prerequisites:** Proficiency in double jumps off-ice. If you're not quite there yet, they also have the Level 2 **6-Month Double Jumps Club** at the same $299 price.

A couple of helpful notes:
- You need sneakers, a jump rope, and an off-ice spinner.
- Enrollment is open continuously – you can join any time and start at the next session.

Would you like to check available start dates (if so, what's your timezone?), or go ahead and enroll?

You> 
```

Tools called	search_offerings (max_price=350), get_offering_details
Product found	Yes: "Victory Skating Academy has exactly what you're looking for."
Facts given	\$299 for 6 months, "well under your \$350 budget", with the billing terms; points to the Double Jumps Club only if the skater is not landing doubles yet.
Can enroll or pay	Offers to check a date or enroll.
Before	Said the club is "invitation only" and "not available for direct purchase"; nothing under \$350.

Question 4

How much is the Victory Skating / VSA Double Axel Club and what is included?

New conversation.

```
PS C:\PSPanel\Home\training\learning\vsa\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You> How much is the Victory Skating / VSA Double Axel Club and what is included?

You: How much is the Victory Skating / VSA Double Axel Club and what is included?
-> search_offerings(query="Double Axel Club price and what is included")
-> get_offering_details(offering_id="double-axel-club")

Assistant: The **6-Month Double Axel Club** at Victory Skating Academy costs **$299.00 USD** (billed every 6 months, renewing automatically until cancelled; non-refundable). The regular list price is $699.00, so this is a 57% discount – about $6.23 per class.

**What's included:**
- 2 live 45-minute group classes every Saturday and Sunday with Coach Marta (48 classes over 6 months)
- Free 4-day 2Axel Workbook
- $5 discount on your next private class
- 2 free group-class passes for friends or relatives
- Structured progression for 6 months
- Confirmation email right after enrollment, with session links and details within 24 hours

**Level & prerequisites:** Level 3 – for skaters who already land double jumps off-ice and want to master the Double Axel.

**What you'll need:** sneakers, a jump rope, an off-ice spinner, stable Internet, and some space to train.

**Billing terms:** $299.00 USD every 6 months, renews automatically until cancelled. You can cancel at least 48 hours before the next payment date via the Subscriptions link in your confirmation email. It's non-refundable.

Would you like me to check availability for a start date or help you enroll?

You> █
```

Tools called	search_offerings, get_offering_details
Product found	Yes.
Facts given	\$299 billed every 6 months, renewing, non-refundable; every inclusion from the page, coach, schedule, level, equipment.
Can enroll or pay	Offers to check availability or help enroll.
Before	Price right, but an invented prerequisite, the \$699 crossed-out price quoted for another club, and no renewal terms.

Question 5

I want online training to improve my Double Axel. Can I join the VSA program?

New conversation.

```
PS C:\OSPanel\home\training\learning\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You: I want online training to improve my Double Axel. Can I join the VSA program?

You: I want online training to improve my Double Axel. Can I join the VSA program?
-> search_offerings(query="online training to improve my Double Axel")
-> get_offering_details(offering_id="double-axel-club")

Assistant: Yes – Victory Skating Academy has an online program for exactly this: the "6-Month Double Axel Club" (Level 3).

Here's what it involves:

- What it is: Live online off-ice group training for skaters who already land double jumps off-ice and want to master the Double Axel.
- Classes: Two live 45-minute classes every Saturday and Sunday with Coach Marta – 48 classes over 6 months.
- Level: Level 3. Prerequisite: proficiency in double jumps off-ice.
- What you'll work on: approach and set-up, generating rotation and height, precise landings, plyometric/bounding drills for take-off power, core strength, and double-revolution drills for muscle memory.
- Equipment needed: skaters, jump rope, off-ice spinner, stable internet, and some space to train.
- Price: $299.00 USD (list price $699.00 – 57% off), billed $299.00 every 6 months, renews automatically until cancelled. It is non-refundable. Cancellation: at least 48 hours before the next payment date via the Subscriptions link in your confirmation email.

A couple of important notes:

- The program runs every week and is open continuously – you can join any time and start at the next scheduled session. The "October 10" date on the page is just one start, not a deadline.
- If you're not yet confident with double jumps off-ice, the Level 2 "6-Month Double Jumps Club" would be a better fit instead.

Would you like me to check the next available session times for the Double Axel Club, or would you like to enroll?

You: 
```

Tools called	search_offerings, get_offering_details
Product found	Yes, with the full description.
Facts given	Coach, schedule, level and prerequisite; \$299 billed every 6 months; open continuously, the October 10 date is not a deadline.
Can enroll or pay	Offers to set up enrollment.
Before	"\$6 per session" as the way to pay, a monthly self-guided plan, and "train anytime".

Question 6

I'm free on November 6. Can I join the VSA Double Axel program around that time?

New conversation.

```
PS C:\VSPanel\homel\training\learning\vsa\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You> I'm free on November 6. Can I join the VSA Double Axel program around that time?

You: I'm free on November 6. Can I join the VSA Double Axel program around that time?
-> search_offerings(query="VSA Double Axel program")

Assistant: I found the program. Before I check what sessions are available around November 6, could you tell me your timezone? That way I can show you the class times in your local time.

You> Bangkok

You: Bangkok
-> check_availability(offering_id="double-axel-club", date="2026-11-06", timezone="Asia/Bangkok")

Assistant: Good news – yes, you can join. Here's what that looks like in Bangkok time (UTC+07):

- **First class:** Saturday, 7 November 2026, 22:00-22:45
- Then every **Saturday and Sunday** at 22:00-22:45

The program runs continuously, so you're not tied to a specific start date. Since you're free on Friday, 6 November, your first session would be the very next day (Sat 7 Nov) – just note the classes run late in the evening your time.

The 6-Month Double Axel Club is **level 3** training for skaters who already land double jumps off-ice and want to master the Double Axel. It includes two live 45-minute online classes with Coach Marta every Saturday and Sunday (48 classes over 6 months).

Would you like me to share the enrollment details and price, or set up a checkout link for you?

You> █
```

Tools called	search_offerings; after the customer answers "Bangkok": check_availability (date=2026-11-06, timezone=Asia/Bangkok)
Product found	Yes.
Facts given	Asks for the timezone first, then: "Yes, you can join." First class Saturday, November 7, 22:00 to 22:45 Bangkok time, then every Saturday and Sunday.
Can enroll or pay	Offers enrollment details or a checkout link.
Before	"I can't confirm"; look for a contact form.

Question 7

Who coaches the VSA Double Axel Club, what level is it for, how many classes are there, and what time are the classes for me in London?

New conversation.

```
PS C:\OSPanel\home\training\learning\vsa\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You: Who coaches the VSA Double Axel Club, what level is it for, how many classes are there, and what time are the classes for me in London?

You: Who coaches the VSA Double Axel Club, what level is it for, how many classes are there, and what time are the classes for me in London?
-> search_offerings(query="VSA Double Axel Club", timezone="Europe/London") [error]
-> search_offerings(query="VSA Double Axel Club")
-> get_offering_details(offering_id="double-axel-club", timezone="Europe/London")

Assistant: Here's what I found about the **6-Month Double Axel Club** at Victory Skating Academy:

- Coach: Coach Marta - a figure skating coach with international experience, trained at MKS Axel Toruń (Poland) and with Team Mayer-Virtanen (Finland), with a degree in Physical Education.
- Level: Level 3 - for skaters who already have proficiency in double jumps off-ice and want to master the Double Axel.
- Classes: 2 live 45-minute classes per week (Saturdays and Sundays), totaling 48 classes over 6 months.
- Time in London: The next session for you is Saturday 10 October 2026, 15:00-15:45 BST (classes run every Saturday and Sunday at that time, though local times can shift when the clocks change).

The program is online, runs continuously (you can join any time and start at the next session), and is priced at $299 USD every 6 months (renews automatically until cancelled, non-refundable). Would you like me to check availability or set up enrollment?

You: 
```

Tools called	search_offerings with an extra timezone argument, rejected by the server; the model retries correctly and calls get_offering_details (timezone=Europe/London)
Product found	Yes.
Facts given	Coach Marta with her background, Level 3, 48 classes, and 15:00 to 15:45 BST in London, with a note that local times shift when clocks change.
Can enroll or pay	Offers to check a date or enroll.
Before	Coach "not listed", class count "not stated", level vague.

Question 8: the sales flow from the assignment

One conversation: under \$350, then November 6, then "I want to join."

```
PS C:\OSPanel\home\training\learning\vsa\vsa-project\vsa-mcp-server> .\venv\Scripts\vsa-chat.exe --save
deepseek-v4-pro (tools). Empty line or Ctrl+C to quit.

You: I want to improve my Double Axel and I'm looking for an online program under $350.

You: I want to improve my Double Axel and I'm looking for an online program under $350.
-> search_offerings(query="improve my Double Axel online program", max_price=350)
-> get_offering_details(offering_id="double-axel-club")

Assistant: I found a great fit for you at Victory Skating Academy:

**6-Month Double Axel Club** - Level 3, online off-ice group training
- **Price:** $299.00 (list price $699, 57% off) - under your $350 budget
- **What it is:** Live online group classes focused specifically on mastering the Double Axel off-ice: approach and set-up, rotation and height, precise landings, plyometrics for take-off power, core strength, and double-revolution drills for muscle memory.
- **Schedule:** Two live 45-minute classes with Coach Marta every **Saturday and Sunday** - 48 classes over 6 months.
- **Prerequisite:** Proficiency in double jumps off-ice (this is the Level 3 club; if you're not yet confident with double jumps, the Level 2 Double Jumps Club is the usual starting point).
- **Included:** Free 4-day 2Axel Workbook, $5 off your next private class, and 2 free group-class passes for friends/relatives.
- **Equipment needed:** Sneakers, jump rope, off-ice spinner, stable internet, and space to train.

**Billing terms:** $299 every 6 months, renewing automatically until cancelled. It's non-refundable, and you can cancel at least 48 hours before your next payment date via the Subscriptions link in your confirmation email. You can join at any time and start at the next scheduled session.

A couple of questions so I can help further:
1. Would you like me to check the next available session times in your timezone?
2. Would you like to go ahead and enroll?

You: I'm free on November 6. Can I join around that time?

You: I'm free on November 6. Can I join around that time?
-> check_availability(offering_id="double-axel-club", date="2026-11-06")

Assistant: Yes, you can join around that time. The program is rolling, so you can enroll any time and start at the next scheduled session. Since Friday, November 6 isn't a class day (classes run Saturdays and Sundays), your first session would be that same week end.

Upcoming sessions (times shown in **Pacific Time**, since I don't have your timezone yet):
- **Sat 7 Nov 2026, 07:00-07:45 PST**
- **Sun 8 Nov 2026, 07:00-07:45 PST**
- Sat 14 Nov 2026, 07:00-07:45 PST
- Sun 15 Nov 2026, 07:00-07:45 PST

What's your timezone? I can convert these to your local time to make sure the Saturday/Sunday morning slot works for you.

You: I want to join.

I
```

Question 8: checkout

The link from "I want to join" opens the business's real Stripe checkout: \$299, billed every 6 months.

Tools called	search_offerings (max_price=350), get_offering_details; check_availability (date=2026-11-06); create_checkout_link (date=2026-11-06)
Product found	Yes, as the first and only recommendation.
Facts given	All club facts and the billing terms in the first answer; next sessions November 7 and 8; before the link: price, renewal, cancellation and no refunds.
Can enroll or pay	Yes. buy.stripe.com/14AeVd6anbti69kcJ9dMM1M?client_reference_id=9a491648... The id links the payment to this conversation. First session for this customer: Saturday, November 7.
Before	Walked the customer through buying the single-Axel club, next to competitors' checkout links.

Question 9: with the product page link

One conversation, five messages: details, November 6, Bangkok time in November, payment terms, "I want to join."

You: https://victoryskating.com/doubleaxel Tell me about this program: price, coach, schedule, number of classes and level.

You: https://victoryskating.com/doubleaxel Tell me about this program: price, coach, schedule, number of classes and level.
-> search_offerings(query="double axel program")
-> get_offering_details(offering_id="double-axel-club")

Assistant: Here's what I found for the program at that link – the **6-Month Double Axel Club**:

**Level:** Level 3. Prerequisite: you're already proficient in double jumps off-ice.

**Coach:** Coach Marta (International figure skating coach; trained at PKS Axel Toruń in Poland and with Team Mayer-Virtanen in Finland; degree in Physical Education).

**Schedule:** 2 live online classes per week – every Saturday and Sunday – each 45 minutes. (Times depend on your timezone; e.g., this weekend's Saturday session is at 10:00 AM EDT / 3:00 PM London / 4:00 PM Berlin.)

**Number of classes:** 48 live group classes over 6 months.

**Price:** $209 USD (list price $699, so 57% off) – about $6.23 per class. It bills **$299 every 6 months and renews automatically until cancelled**. It is **non-refundable**, and you can cancel at least 48 hours before the next payment date via the Subscription link in the confirmation email.

**What's included:**
- 2 live group classes every Saturday and Sunday
- Free 4-day 2Axel workbook
- $5 discount on your next private class
- 2 free group-class passes for friends or relatives
- Structured 6-month progression into harder double jumps and triple jumps

**Required equipment:** sneakers, a jump rope, an off-ice spinner, stable internet, and some space to train.

**Enrollment:** Open continuously – you can join any time and start at the next scheduled session (access details arrive within 24 hours of payment).

Would you like me to check availability for a specific start date (and if so, what timezone are you in)?

You: I'm free on November 6. Can I join around that time?

You: I'm free on November 6. Can I join around that time?
-> check_availability(offering_id="double-axel-club", date="2026-11-06")

Assistant: Good news – yes, you can join. Enrollment is rolling, so you can sign up any time and start at the next scheduled session.

Since November 6 is a Friday, your first class would be the next weekend:
- **Sat 7 Nov 2026, 07:00-07:45 PST**
- **Sun 8 Nov 2026, 07:00-07:45 PST**
- Then every Saturday and Sunday after that.

Note: those times are shown in **America/Los_Angeles (PST)**. If you tell me your timezone, I can give you the exact local class times.

Would you like me to set you up with the checkout link to enroll?
```

```

PS C:\OSPanel\home\training\learning\vsa\vsa-project\vsa-mcp-server> .\.venv\Scripts\vsa-chat.exe --save
Would you like me to set you up with the checkout link to enroll?

You> What time would the classes be for me in Bangkok in November?

You: What time would the classes be for me in Bangkok in November?
-> check_availability(date="2026-11-06", offering_id="double-axel-club", timezone="Asia/Bangkok")

Assistant: In Bangkok (UTC+07), the classes run at **22:00-22:45** in the evening:

- **Sat 7 Nov 2026, 22:00-22:45**
- **Sun 8 Nov 2026, 22:00-22:45**
- **Sat 14 Nov 2026, 22:00-22:45**
- **Sun 15 Nov 2026, 22:00-22:45**

And every Saturday and Sunday after that.

Would you like me to create the checkout link so you can enroll?

You> Is it a one-time payment or a subscription? Does it renew, and can I get a refund?

You: Is it a one-time payment or a subscription? Does it renew, and can I get a refund?

Assistant: It's a **subscription**, not a one-time payment:

- **Billing:** $299 USD every 6 months, and it **renews automatically until you cancel**.
- **Refunds:** It is **non-refundable**.
- **Cancellation:** You can cancel at least **48 hours before the next payment date** via the Subscriptions link in the confirmation email.

So you pay $299 now, get 6 months (48 classes), and it will automatically charge $299 again every 6 months unless you cancel before that date.

Would you like me to create the checkout link to enroll?

You> My email is vladimir.mizin1@gmail.com. I want to join.

You: My email is vladimir.mizin1@gmail.com. I want to join.
-> create_checkout_link(offering_id="double-axel-club", email="vladimir.mizin1@gmail.com", timezone="Asia/Bangkok", date="2026-11-06")

Assistant: Here's your enrollment link:

**https://buy.stripe.com/14AeVd6anbt169kcJ9dM1M?client_reference_id=f6f13e8538ad48228e518f0f21e4d0bc&prefilled_email=vladimir.mizin1%40gmail.com**

Just to confirm the terms before you pay:
- **Price:** $299 USD (list price $699) for the 6-Month Package – 48 live classes over 6 months.
- **Billing:** $299 every 6 months, **renews automatically until cancelled**.
- **Cancellation:** Cancel at least 48 hours before the next payment date via the Subscriptions link in the confirmation email.
- **Refunds:** Non-refundable.

After payment, your access details arrive within 24 hours, and your first session will be **Sat 7 Nov 2026, 22:00-22:45 (Bangkok time)**.

Let me know if you have any other questions!

You> █

Tools called	search_offerings, get_offering_details; check_availability (date=2026-11-06); check_availability (timezone=Asia/Bangkok); none for the billing question (answered from the earlier result); create_checkout_link (email, timezone=Asia/Bangkok, date=2026-11-06)
Product found	Yes. The tools do not depend on reading the page.
Facts given	Price and billing terms from the first answer. Bangkok in November: 22:00 to 22:45, one hour later than the page shows, because the US changes clocks on November 1 and Thailand does not. "It's a subscription, not a one-time payment... renews automatically until you cancel."
Can enroll or pay	Yes. The checkout link with the conversation id and the customer's email prefilled (prefilled_email), and the first class given in Bangkok time: Saturday, November 7, 22:00.
Before	Read the page, but gave 21:00 for Bangkok, could not say whether the payment recurs, and gave no checkout link.

Where to look next

- Source code, architecture and design decisions: README in the repository.
- Full transcripts: docs/transcripts/after (this test) and docs/transcripts (API runs with and without tools).
- Before check report: the same questions in the DeepSeek chat app, without the layer.
